is not give such superintendence or control, but leave the same to the said
widow he will not be so entitled the intention of the testator being that the
two hundred Dollars should be a compensation for the services of any one
who having qualified under his will acted as superintendant or executor
+ That the Administrator has the same general power to dispose of
the negroes as is conferred by the will on the executor and that the
costs of the said be paid out of the assets of the testator.
